

Blue Ridge Power Named One of *Solar Power World's* 2021 "Top Solar Contractors" in 10th Edition of the List

Asheville, NC (July 20, 2021) – Blue Ridge Power, a leading full-service engineering, procurement and construction (EPC) company for solar energy projects, announced today that it has been named as one of the country's "[Top Solar Contractors](#)" by *Solar Power World* magazine. Ranked #6 for "Top Solar EPCs," #1 for "Top North Carolina Contractors" and #8 for the "Top Utility Contractors," Blue Ridge Power is one of more than 400 companies on the 2021 list, employing more than 550 people across all aspects of its EPC services.

"We're incredibly honored to be recognized as a top solar contractor in our first official year operating as Blue Ridge Power," said Chris Dunbar, CEO of Blue Ridge Power. "The industry is poised for immense growth and we're lucky to have top talent in-house as well as key partner relationships to bring our utility-scale solar and storage projects online."

Ranked by installation completed in 2020, Blue Ridge Power installed 961,485 kW of solar power last year. The Top Solar Contractors list is developed each year by *Solar Power World* to honor the work of solar installers in the United States.

"Not even COVID-19 closures and slowdowns could prevent the solar industry from installing fantastic numbers last year," said Kelly Pickerel, editor in chief of *Solar Power World*. "The *Solar Power World* team is so glad to recognize over 400 companies on the 2021 Top Solar Contractors list that not only survived a pandemic but thrived in spite of it."

As a leader in the solar industry, Blue Ridge Power has more than 370 solar projects operating or in development in sixteen states coast to coast including Oregon, Massachusetts and North Carolina. Its in-house team, global supply chain, battery storage expertise and fleet of industry-leading equipment allows for the company to create turnkey solutions for large-scale solar and storage projects.

For more information on Solar Power World's Top Solar Contractors list, visit [Solar Power World](#) and pick up the July 2021 issue. Companies are listed by state/territory, market and service and according to the kilowatt capacity that has been developed and installed in the previous year.

About Solar Power World
